Based on the list of key words selected during design research (professionalism, classical, established, exclusive, masculine, sophistication, and traditional), we defined the brand personality through the means of the logo.

Identity I

The form is inspired by suit folds. The sharp edges and smooth curves showcase a blend of the masculine and feminine.

Identity II

The form is inspired by suit folds and trophy. Trophy symbolises success and the form also has inspirations from art deco movement. Typography used is bold and leaves a mark in the mind.

Identity III

The form has the same inspiration as the previous one but the elegant curved and straight lines show a perfect blend of the masculine and feminine. The typography used is also art deco inspired and shows elegance and modernity.

Identity IV

The spade symbolizes wisdom, acceptance and labor. The cordate leaf shape has 2 sharp corners and 2 curved lines, which is again a representation of the masculine-feminine blend.

From another perspective, it can be seen as a tree with lots of branches that signify legacy and heritage.

This is the colored version of the logo form. It is to be used where there is ample of vertical and especially horizontal space.

This version is to be used for social media avatars, and special case scenarios like website loaders and brand animated videos.
